

Butterfly Garden Learning Center, Inc.
Education Options for Approved Unmasked
Medically Exempt Students

Educational options for students at BGLC who are unable to tolerate a face covering due to a medical contraindication or developmental disability include:

1. Remote learning. Students will be provided weekly materials for parent pick-up with access to Brightwheel's daily summaries of learning topics.
2. In person learning. Students can attend during their class' academic time (approximately 30 minutes) in an area designated safe for social distance from the congregate masked population and snack time (approximately 15 minutes) where all students are socially distanced and unmasked.

Due to our building lay-out, play-based structure and IDPH regulations, our congregate setting will not lend itself for unmasked students to engage in cooperative play, circle time, science, music/movement or art within safe distance with the masked population.

Full tuition is due regardless of educational options.
